Additive Sustainability, Play your Part!

# Turn Your 3D Printing Waste into Value

At AM Supplies, we understand the challenges businesses face when dealing with waste from 3D printing processes—waste powders, failed builds, build plates, and turnings. The good news? We buy these waste streams, helping you recover value while promoting sustainability.

## BUY

### Powders

- Metal Powders
- Non-compliant materials
- End of life

### Solids

- Failed parts
- End of life build plates
- Turnings

## SELL

### Feedstock

- Virgin Metal Powders
